

You'll Get Hooked!!

We realize that packaging is ever-changing. It is no longer a simple pouch or bag, but a real solution worthy of serious consideration. We know that the ability for any package to add to your product's positive consumer usage experience is a valuable marketing benefit and can greatly enhance future sales . . . And that is why **Commercial Packaging & Plastic Packaging Technologies, LLC** have combined forces and we are here to give you the tool you need to *make that happen!!!*

*Commercial Packaging & Plastic Packaging Technologies, LLC., have teamed up to offer a new line of durable Quad Seal Pouches.
The Pinch Bottom, Back Seam, Quad Seal Pouch.*

Sealed in each corner

Get ready to get Hooked!!

10 color graphic capabilities

Pinch bottom seal folds neatly under pouch to give a boxy shape that squares up nicely on retail shelves

Bag is more stable upright, as well as flat, (offering more fill space)

Saves on shipping and storage costs

Pre-Made pouch means entering the market without capital investment or expensive machine conversions required for filling (although Roll Stock is also available!!)

Superior strength as compared to paper

Heat Seal method used to securely close pouch—perfect for individual servings or one-time use products

Gusseted pouch has crisp, clean, seams -makes displaying your product a breeze

Fin or lap-seal separates back panel into two column format providing optimal visual for those products requiring less text

Can be used to replace rigid containers

Various barrier options available to meet variety of applications

Ideal for frozen or dry products, lawn & garden, pet food & treats, candy & confectionary markets, and many others

Commercial Packaging's flexible packaging is used for a variety of retail and institutional food and consumer products. We provide our customers with exceptional service and the finest in package printing with precise package protection and functionality. Come and check out this pouch, you'll get HOOKED!!
