

COMMERCIAL PACKAGING & PLASTIC PACKAGING TECHNOLOGIES

WILL HELP YOU ...

STAND

TALL

We are aware that flexible pouch packaging has many applications. We are also aware that packaging designed to “stand up” on the shelves offer the highest visibility and best sales exposure for consumers. Now combine that with a package format perfectly suited for today’s realm of product offerings and a focus on convenience and point of use. What do you get???

Commercial Packaging has teamed up with Plastic Packaging Technologies, LLC to offer you a new line of durable Quad Seal Pouches.

The Pinch Bottom, Extreme Side Seal, Quad Seal Pouch.

- ↑ Sealed in each corner Get ready to *Stand Tall!* Stand Up! and Stand Out!
- ↑ Extreme side seal allows for 4 seamless graphic panels
- ↑ 10 color graphic capabilities
- ↑ Pinch bottom seal folds neatly under pouch to give a boxy shape that squares up nicely on retail shelves, maximizing space
- ↑ Bag becomes more stable both upright or flat (more fill space)
- ↑ Exceeds performance requirements during filling, distribution and consumer use
- ↑ Although **Roll Stock is available**, premade pouches typically prevents the need for expensive machine conversions often required for filling
- ↑ Slider zipper or press-to-close capabilities for multi-serving products, keeping contents fresh and preventing spillage
- ↑ Superior strength as compared to multiwall packaging

- ↑ Can be used to replace cartons (bag in box), canisters (spiral wound or composite), metal cans and rigid plastic containers, and presents product in a more elegant manner
- ↑ Various finishing options such as laser scoring and hang holes
- ↑ Variety of substrates and custom-designed barrier properties to meet a variety of applications and elements
- ↑ Saves on material, shipping and storage costs (one truck load equivalent to 25 truckloads of rigid packaging)
- ↑ Addition of clear substrate allows content viewing
- ↑ Ideal for frozen or dry products, lawn & garden, pet food & treats, candy & confectionary markets, and many others

Commercial Packaging’s flexible packaging is used for a variety of retail and institutional food and consumer products. We provide our customers with exceptional service and the finest in package printing with precise package protection and functionality. Let us help your product Stand Up and Stand Out!
